MULTI PANEL KIT

This modular display system grows with your needs of displaying more data, pictures, products etc. Perfect for any kind of exhibition, trade show or sales campaign.

MS pipes form a stable frame-work. Plastic clip strips fit into this framework and hold the panel infill. The standard infill is of synthetic material covered with info fabric. This can act as a pin board or one could use Velcro tape.

Multipanel Kit 3

The Multi panel kit constitutes of:
1. Double side - Light weight panel boards
2. The boards are covered with Blue fabric on one side and Red fabric on the other
3. You can place your visuals, printed Matter etc on the fabric by just affixing the Velcro Tapes on the rear of the poster.
4. Removing is easy by simply pulling the poster from the board
5. We also arrange for printing of the poster
6. The panels can be completely dismantled
7. The entire structure can be carried in a bag
8. You can then carry the bag by Road, Rail or Air
9. You can erect the same inside a prefabricated stall or just raw space
10. Shelves can be fitted alongside the backdrop
