Production Display Board (Industrial Production and Reporting Systems)

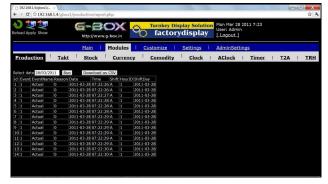

Core module features:

- Measure production
- Cycle time based productivity display to show Real time Target, Actual, Gap and Efficiency
- Hourly production data for the line
- Set up the unit with Shift start and end times and Shift breaks
- Download production data live. Download CSV and import to MSEXCEL or other format to parse data.
- Multiple screens for quick display of Shop floor data at various levels for example screens at Plant Manager / Supervisor cabin to display line data for each line
- Communicate key information to employees and visitors
- · Keep employees informed about important announcements, such as safety and other messages
- Highlight corporate and individual accolades, such as the Employee of the Month
- Provide recognition to employees on their birthday or anniversary
- Display emergency alert messages
- Extend your content to break rooms, cafeterias and other common areas.

Core Module Screen Shots

Optional - Real time Current Hour Screen

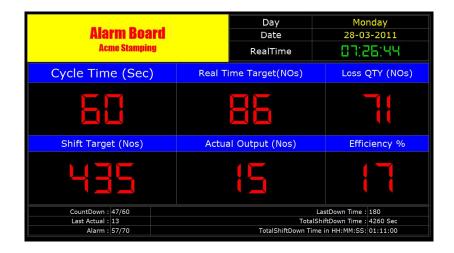

Summary Boards for Multiple Lines (Shift / Hourly):

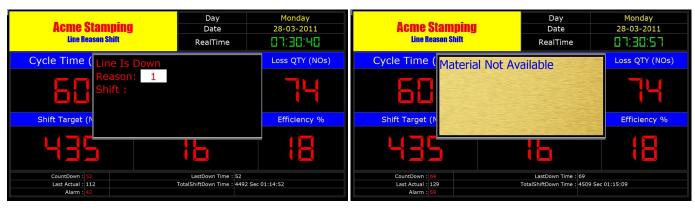

All Lines Line Summary Shift 20:34:29	Plan	Actual	Gap	Eff	Current Hour Summary Line Summary Shift 20:34:56	1		2	3	4	5	6	7	8
17	- C1 (0.4	70	15.7		50	0	60 IY	500	400	500	450	500	600

Add on Modules:

• IPR-1 - Alarm Board. Allows you to set an audible alarm that will go off when no actual is received.

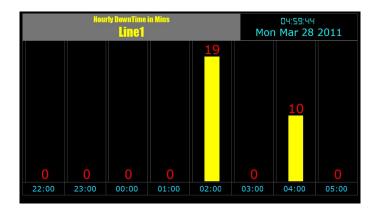

• IPR-2 - Line down Board with Alarm - This board allows you to register a reason for line down. The board will prompt for a reason when the alarm duration is completed without any product being produced.

• IPR-3 Line down Alarm Board with scheduling. This board allows you to setup a production plan that lets you define multiple product models for the same line in a shift. Each model can have its own cycle time and alarm time.

Line Reas	Stamping on Shift Plan		Day Date RealTime	28-03	Monday 28-03-2011
