L.E.D – Alarm Clock – Shift Alarm Clock **With provision to connect Hooter**

We make LED display boards with LED's of various sizes, brightness and colours.

We make boards as per your specification and layout.

Our boards can accept inputs from various sources including Your

PC, RS232, RS485, RF, PLC, Relay contacts, DC Input, Hand Held Remote Controls (IR), Keypad, SMS etc.

Just mail your requirement right away

We will revert with complete specs, visuals and estimate within hours by email.

We offer customized solutions to clients and offer tailor made products with speed, economy and reliable performance.

We make LED Alarm Clocks that display Time and can be programmed for upto 24 Alarms in a day.

- ❖ For Indoor Viewing: 2" (50mm), 4" (100mm), 6" (150mm), 8" (200mm), 12" (300mm)
- ❖ For Outdoor Viewing in Daylight - 6" (150mm), 8" (200mm), 12" (300mm), 16" (400mm)

Note: The digits are FND (tube type) for 2 and 4 inch digits, for larger digits the Numeric is composed of Single LED's in "7" segment fashion.

**In this PDF we have highlighted the LED Alarm clock with 8" digits –
- Programmable - with 24 alarm settings and provision to connect a hooter.**
